NUCLEAR SAVAGE

The Islands of Secret Project 4.1

A Film By Adam Horowitz

"John is a savage, but a happy, amenable savage."
—1950's newsreel footage of Marshall Islanders

WEDNESDAY 09/24/14 AT 3PM
AT TEACHERS COLLEGE, COLUMBIA UNIVERSITY

525 WEST 120TH ST, NEW YORK, NY 10027 ROOM 305 RUSSELL HALL (3RD FLOOR)

SUBWAY: #1 TRAIN TO 116TH STREET

Featuring recently declassified U.S. government documents, survivor testimony, and unseen archival footage, **Nuclear Savage** uncovers one of the most troubling chapters in modern American history: how Marshall islanders, considered an uncivilized culture, were enrolled as human subjects in the top-secret Project 4.1 to study the effects of nuclear fallout on human beings.

The film follows the islanders today as they continue to fight for justice and acknowledgement of what was done to them. Despite recent disclosures, the U.S. government continues to deny that the islanders were deliberately used as human guinea pigs.

A post-screening discussion will be led by Petuuche Gilbert from the Pueblo of Acoma in NM, President of the Indigenous World Association.
